### Description

**Description:**

PCA Skin Ideal Complex Revitalizing Eye Gel features cutting-edge, anti-aging technology designed to visibly reduce the signs of premature aging around the delicate eye area. Next generation peptides reduce fine lines and wrinkles while stem cells and growth factors increase firmness and elasticity. Crow's feet, dark circles and sagging are diminished for a toned and radiant texture.

**Directions:**

After cleansing, toning and applying the appropriate PCA SKIN treatment serums, pat a small amount gently around the eye area and on the eyelid in the morning and evening.
