Description

Description:

Pharma Whey HT+ bar is a great tasting, high protein bar that possesses 30g quality protein & less than 3g Sugar per 75g bar!

Who is Pharma Whey HT+ Bar for?

Anybody seeking a high protein hit from a clean & tasty source of nutrition needs to get their hands on the Pharma Whey HT+ bar. Packing 30g quality protein you're getting a really generous bang for your buck! With the Pharma Whey HT+ Bar containing less than 19g carbs and only 3g deriving from sugar, it's a great option for those looking to keep the body fat at bay.

Benefits:

Not only is the Pharma Whey HT+ Bar super convenient, but it also packs 30g protein which is significantly higher than most protein bars on the market today. Considering this, it still possesses a soft centre with additional texture from the protein crispies! The Pharma Whey HT+ Bar also contains a whopping 9.3g fibre as well as calcium to support healthy bones and muscle function, along with vitamin E to protect the body from

the oxidative stress that can occur during serious and intense exercise.

Features:

- 30g protein to aid muscle growth*
- Great tasting and only 3g sugar
- High in fibre and great macro profile
- Halal, GMO Free

Use:

Pharma Whey HT+ is recommended to be consumed on 2 occasions. Firstly, whilst on the go; if you're struggling to get a high & quality protein hit, the Pharma Whey HT+ bar is the answer! Secondly, post workout, sometimes a shake might not cut it when hunger gets the better of you & the macro breakdown in the Pharma Whey HT+ bar is ideal for protein replenishment & recovery.
