Description

Description:

The PHYTOMILLESIME Beauty concentrate combines the three essential actions for color-treated or highlighted hair :

-Intense protection

Protected by the benefits of PHYTOMILLESIME, hair maintains its integrity for longer and color keeps its vibrancy. This protection helps to improve the resistance of color-treated and highlighted hair to external aggressions.

-Ultimate care

By restoring the hair's lipid barrier, PHYTOMILLESIME leaves hair stronger, softer and more resilient. The hair is perfectly cared for, scales are smoothed and color reveals an incomparable shine, with a new, pure, intense and dazzling radiance.

-Easier styling

Phyto Phytomillesime Beauty Concentrate

Detangling becomes a breeze. Hair is easier to style, frizz is controlled. PHYTOMILLESIME doesn't just enhance; it breathes new beauty into your hair! Soft, flowing and frizz-free, it stays in place better and is beautifully sensual.

Use:

When sprayed onto damp hair after washing or onto dry hair as a daily leave-in product, the PHYTOMILLESIME Beauty concentrate makes styling easier and envelops color-treated and highlighted hair in radiant shine.
