Description

Description:

Just after coloring your hair, your color is shiny, vibrant and you love it! But from the first shampoo, the color fades away and becomes dull. Formulated specifically for color-treated, highlighted hair, Phytomillesime combines three actions

- Anti-color stripping action: the color locker complex, of botanical origin, forms a protective shield for the hair to prevent the loss of pigments.
- Anti-fading action: Red Love Apple extract protects the hair fiber and preserves color.
- Caring action: extractions of apple tree blossoms and fruits, and of the hibiscus, gently seals hair scales.

Sulfate free

Use:

Apply shampoo on damp hair. Massage gently, then rinse well.
