Description

Description:

With a high concentration in botanical active ingredients, Phytonectar shampoo helps restore the moisture and lipid balance in ultra-dry, porous hair. Its creamy formula, brimming with moisturizing and revitalizing soybean amino acids and pure Orange Blossom wax extract, nourishes hair from within. Hypericum, a natural shield combined with anti-oxidant Vitamin E, helps protect hair from external stress factors. Witch Hazel extract tones, while wood cellulose derivative smoothes hair and facilitates detangling. Finally, a botanical washing base derived from Coconut oil makes Phytonectar a very gentle formula.

Even the most dehydrated hair quickly regains its original strength, suppleness and shine.

Use:

On wet hair, apply a quarter size amount of shampoo and gently massage into lather. Rinse. Repeat, leaving the lather on for 2 to 3 minutes. Rinse thoroughly.
