Description

Description:

DHA omega-3 fatty acid supports normal brain function. The effective DHA dose is 250 mg/day.

Omegabiane DHA provides 250 mg of DHA omega-3 per capsule.

We consume 20 times more omega-6 than omega-3*; yet to maintain a healthy nutritional balance, ANSES** recommends a ratio of five omega-6 to one omega-3.

DHA is a fatty acid of the omega-3 family. It is considered "essential" since our organism is unable to synthesise it and must therefore acquire it through food. It supports normal brain function

Use:

Swallow 1 to 3 capsules per day.

Duration of supplement: 26 to 80 days.
