Description

Description:

Multi + Multi time is a multivitamin specifically designed to meet the daily needs of adults. With a wide range of vitamins, minerals and trace elements. Timed released tablets offer gradual release and thus better absorption of the active ingredients.

The vitamins, minerals & trace elements contained in Multi + Multi time contribute to the following:

- Vitamins B6, B12 and Magnesium: Normal functioning of the nervous system.
- Zinc: Normal cognitive function and maintenance of the normal testosterone levels in the blood.
- Vitamins B1 and B2: Normal energy-yielding metabolism
- Niacin and biotin: Normal psychological
- Pantothenic acid and folic acid: Reduction of tiredness and fatigue.
- Vitamin B1: Normal functioning of the heart.
- Vitamin E & selenium: Protect cells from oxidative stress.

- Iron: Normal transfer of oxygen to the body.
- Vitamin C: Normal formation of collagen for the normal functioning of bones, cartilage, teeth, gums, skin and blood vessels.
- Calcium, manganese and vitamin D3: Maintenance of normal bones.
- Phosphorus: the maintenance of normal teeth and bones.
- Vitamin D3: Helps reduce the risk of falling associated with postural instability and muscle weakness. Falling is a risk factor for bone fractures among men and women 60 years of age and older.
- Vitamin D3, magnesium and calcium: Normal muscle function.
- Vitamin C, zinc and vitamin D3: Normal functioning of the immune system.
- Vitamin A: Maintenance of normal vision.
- Chromium: The maintenance of normal blood glucose levels.
- Copper: Normal hair pigmentation.

Free from: Gluten, lactose, preservatives, fragrances.

Made in Belgium
