Description

Power of Nature Caviar Beauty Formula is a dietary supplement for the beauty of skin, hair and nails.

Ingredients:

- Caviar: a rich source of nutrients such as "good" fats (omega 3), amino acids, proteins, vitamins (A, B, D), minerals / trace elements (calcium, magnesium, phosphorus, potassium, sodium and selenium) and more.
- Hydrolyzed fish collagen peptides (Peptan®): The term hydrolyzed peptides refers to smaller parts of the large collagen protein chain. These have arisen through the process of hydrolysis we encounter in nature. This ensures their immediate absorption by the body. In fact, when peptides are derived from fish, then optimal absorption, bioavailability and ease of digestion are ensured, as well as the absence of unpleasant side effects such as increased cholesterol, which present with collagen of northern or pork origin.
- Hyaluronic acid: Its role in skin cells is to absorb water

Power of Nature Caviar

- Selenium: Helps maintain the normal condition of hair and nails, as well as protects cells from oxidative stress.
- Vitamin A: Helps maintain skin condition.
- Vitamin C: Contributes to the normal formation of collagen for the normal functioning of the skin

Use:

Take one capsule of **Power of Nature Caviar** daily.
