### Description

**Description:**

PuresSENTIEL Headache Roller with 9 Essential Oils, 100% natural, contains essential oils with destressing, alleviating, calming, relaxing properties.

Essential oils are excellent balancing and nervous system-harmonising agents. They have also tonic and stimulative properties.

They help to drive out "the feeling of vice", calm down stress, alleviate the tensions of the head, neck and shoulders. They are known to soothe the pain and attenuate nervousness. Use it as soon as you feel a painful point between the eyes or a throbbing feeling which irradiates in all your head. This feeling worsens with the least effort. As soon as you feel your head beat at the rhythm of your heart, or you can hardly fix the glance, or concentrate. As soon as the noise or the light attacks you and become unbearable to you.

Dye-free, preservative-free, free from synthesis fragrances, free from mineral oils. Not tested on animals.

**Use:**

By acupressure, in local application onto each temple, then in the middle of the forehead, followed next by the hair line, then behind each ear and as far as the base of the neck, finishing by the pressure point situated in the hollow of the neck, above the spinal column apply the roller by massaging the tension points. If possible, relax for 10 minutes afterwards. Use as needed, every time you feel that the 'crisis' is coming. This will enable you to precede it and thus avoid it. The active ingredients of essential oils penetrate into the skin and act instantaneously.
