Description

Description:

Enriched with vitamins A and B3, alongside Resultime's signature 'vectorised micro-collagen', this rich cream fortifies the fabric of dulled, ageing skin. By rebuilding skin's 'scaffolding', this recovers lost firmness, elasticity and density – with noticeable results in just 56 days. Developed to support your skin's own overnight repair and renewal processes, Resultime by Collin's Re-Densifying Night Cream feels rich and replenishing when massaged into face and neck – instantly alleviating tightness and discomfort, while boosting collagen levels and supporting healthy cell function. Clinically proven, 100% of testers reported an increase in firmness, while 96% felt that their skin was smoother and their wrinkles were reduced. Apply in the evening – on top of Regenerating Collagen Gel for maximum, youth-enhancing effect – and wake up looking dewy-skinned and luminous.

Use:

Apply in evening to the entire face and neck, over a suitable serum and avoiding the eye area.
