Description

Description:

This treatment cream fights the visible signs of skin ageing, from your mid 30's to your mid 40's. Its active ingredients have been selected to regenerate and prolong skin cell life, smooth wrinkles, firm the skin and lift the features. Skin is left supple and illuminated with a youthful glow. Ideal for skin with a loss of firmness.

Use:

Apply in the morning to the entire face and neck, over a suitable serum and avoiding the eye area. It is recommended that you use the Firming Night Cream in the evening.
