Description

Description:

Saugella Poligyn is a soap-free soft cleaner, with natural extracts of camomile and thyme which allows a gentle intimate hygiene.

Refreshing and soothing, this intimate toilet care calms the irritations even associated with a pruritus.

Its neutral pH is ideal during the menopause, when mucous membranes are particularly sensitive and the vaginal pH physiologically higher. So, it helps to find comfort and well-being in case of fragile or dried mucous membranes. pH =7. Paraben free.

Use:

Use like a liquid soap then rinse thoroughly after use.
