Description

Description:

Magnesium helps to regulate calcium transport and absorption. By stimulating the secretion of calcitonin, it aids in the influx of calcium into bone and promotes optimal bone mineralization. Along with ATP, magnesium supports cellular energy production. It also promotes nerve and muscle function. This formulation provides 100% magnesium citrate, a highly absorbable form of this important mineral.

Gluten free, Wheat free, Dairy free, Soy free, Yeast free, Sugar free, Starch free, Artificial Flavor free, Sweetener free, Preservatives and Color free

Use:

As a dietary supplement for adults, two (2) tablets daily, preferably at mealtime, or as directed by a healthcare practitioner.
