Description

Description:

Sona Oralax is a delicious, natural fiber drink containing ispaghula husk - a plant material that works naturally with your body to maintain regularity with no straining, discomfort or unnatural urgency.

Oralax is recommended to help relieve constipation including during pregnancy and breastfeeding. Your healthcare professional may also recommend Oralax to treat diarrhea and to help regulate the passage of food through the gut in people with certain chronic bowel disorders such as an ileostomy, irritable bowel syndrome and ulcerative colitis. When taken daily, Oralax is also beneficial in lowering LDL and total cholesterol levels.

Suitable for: vegetarians, vegans, coeliacs, diabetics, pregnant and/or lactating women, children (6+), lactose intolerant and the elderly.

No dairy, gluten, wheat or yeast

No artificial colors, flavors or preservatives

GMO free

Contains Source of phenylalanine. Not to be used by people with phenylketonuria
