Description

Description:

This emerald-coloured gel toothpaste contains extracts of sage, camomile and hawthorn for effective gum and tooth care.

Calcium obtained from eggshell accelerates mineralisation and strengthens enamel. Fluoride ions effectively protect from dental plaque. Sp.White System gently whitens and polishes tooth enamel to a brilliant shine.

Natural essential oils and extracts of medicinal herbs do not only take care of gums but have a favourable effect on the whole body. Geranium essential oil provides gum care and its enchanting aroma creates a bright mood.

Natural essential oils and extracts of medicinal herbs maintain gum health and exert favourable effects on the whole body. Their solid antibacterial properties provide long-term breath freshness, revitalise oral tissues and prevent the growth of malignant bacteria, thus maintaining healthy oral microflora.

Splat Professional Medical Herbs Toothpaste
