Description

SVR Densitium BI-Serum Anti-Gravity Serum comprises a double formula: a water-gel serum and a nourishing phase that reduce both wrinkles and sagging while providing nutrition as well as radiance to the skin. Moreover ,it is an anti-ageing care for the mature skins. It is used if your skin is less tight, losing either its density, volume, or wrinkles are setting in. SVR BI-Serum is suitable to all skin types ,including sensitive skin.

In addition, SVR Anti-Gravity BI-Serum is more powerful than a simple serum. This double formula has a record concentration of anti-ageing dermatological active ingredients.

Ingredients:

- Hyaluronic acid that redensifies and moisturizes the skin
- Bio-calcium that restructures the epidermis
- Majestem and Pulpactyl that are an anti-gravity complex

- 4 restructuring oils (Roucou, Borage, Onagre and Argan) which redensify and restore volume to the face
- 10% Squalene and Viamerine that provide hydration
- Stoechiol which is an anti-wrinkles complex

How to use?

Apply SVR Densitium BI-Serum Anti-Gravity Serum at both mornings and evenings. Warm the product between your hands, then apply on the face and neck, working upwards.
