### Description

SVR Sebiaclear Cicapeel Targeted Active Gel is a transparent gel specific to reduce acne caused lesions in 24 hours, by drying out and eliminating blemishes. Has a strong action on the prevention and reduction of blemishes. This is a specific product to reduce acne caused lesions in 24 hours. It dries out and eliminates blemishes while preventing the formation of residual marks.

This concentrated fresh gel will act in 24h, by purifying, while eliminating and by drying the imperfections and located redness. Its reinforced action allows to reduce and to indeed prevent the eventual marks on the skin.

SVR Sebiaclear Cicapeel Targeted Active Gel contains Gluconolactone associated to salicylic acid that reduce the imperfections linked to the inflammation. Utilizing Gluconolactone and Niacinamide, a powerful duo of anti-blemish active ingredients, the targeted treatment helps to combat spots, blemishes and blackheads, whilst preventing the formation of residual marks. A dose of Salicylic Acid promotes smoother and also more refined skin.
