Description

Description:

SVR Sensifine AR Anti-Redness Moisturising Soothing Intensive Care 40ml

Ideal in case of occasional or recurrent redness, visible small vessels, SVR Sensifine AR Anti-Redness Moisturising Soothing Intensive Care 40ml has been created to moisturise and reduce redness of the skin prone to atopy. Forming a cool and fresh effect, this care instantly and permanently calms feelings of heat and redness, prevents the appearance of redness.

It also contains green pigments neutralising redness. - The endothelyol 2,5% reduces redness, improves micro-circulation, reduces the appearance of vessels. - Licorice extract soothes and relieves congestion. - The vegetable squalane moisturises the skin in perfect bio-affinity. The skin is immediately soothed and comfortable. Without alcohol, preservative.

Use:

Apply morning and evening on clean skin. Excellent make-up basis.

Indication : To moisturise and reduce redness of atopic prone skins.
