Description

SVR Sun Secure Tinted Mineral Sunscreen SPF50+ is a dry touch fluid sunscreen for normal to combination skin with high coverage to conceal imperfections and even skin tone.Also to the women who wish to wear make-up in the sun all the year.

Offers very high protection in a 100% mineral formula that doubles as tinted makeup. Suitable for intolerant skin as well as women looking for year-round coverage even in the sun. Thanks to the tinted formula, imperfections are no longer in existence and the complexion is unified throughout the day.

Main Ingredients & their Characteristics :

With Integral Secure Technology SVR Sun Secure Tinted Mineral Sunscreen SPF50+ provides a large spectrum protection from UVB, UVA, visible and infrared light, while being resistant to water, sweat and friction. In addition, this product has a universal shade that fits all skin tones.

It offers:

- Organic solar filters that provide physical protection on the surface and a SPF 50+;
- Liposomal antioxidant complex with Beta-carotene and Detoxophane that acts as a cellular shield;
- Niacinamide that repairs cell damage.

Thanks to its good covering, the imperfections are indeed less visible, the complexion evened all day.
Hypoallergenic. Non-comedogenic. Without paraben. Without perfume.

How to use :

Before exposure to the sun, evenly apply an adequate amount to cover the face. Repeat application frequently.
