Description

Description:

SunCare Bronzing Beauty Face Cream has been developed on the basis that a beautiful glowing tan is possible with the ultimate anti-aging and skin health protection with strong hydrating factor. It is ideal for all skin types requiring complete environmental protection and age control in an all in one solution for facial sun care with SPF50. It offers revolutionary DNA infused UV and photoimmuno stem cell protection which goes beyond the standard UVA and UVB filters. Essential for every day use, it prevents damage due to excessive sun exposure and physiological aging. It leaves a beautiful, glowing and long lasting sun-kissed tan and a perfectly moisturized, optimally hydrated and collagen boosted skin. Dermatologically tested
Made in Switzerland

Use:

Apply liberally and evenly before sun exposure. Re-apply after swimming, perspiring and immediately after towel drying or prolonged sun exposure. Apply at least every 2 hours. Lower amounts will reduce the level of protection significantly
