Description

Description:

Tangle Teezer's Thick & Curly hairbrush is the ultimate detangling hairbrush for thick, curly or afro hair.

With the signature Tangle Teezer detangling teeth technology the Thick & Curly can be used on wet or dry hair. It banishes tangles, knots and helps prevent breakage and damage, thanks to its unique two-tiered system technology – the long teeth detangle and the short teeth smooth the hair cuticle for healthier-looking, glossier hair. Adapted to be easily used on thicker, curlier hair, the teeth on the Thick & Curly brush are stronger and 4mm longer, but still with plenty of flex.

Designed to glide through the hair with ease and speed, the Thick & Curly leaves your hair feeling soft, shiny and totally tangle-free – no matter how thick or curly your hair is.

Features:

- Lengthened innovative teeth for improved detangling
- Firmflex technology ideal for gently detangling even the thickest and curliest of hair
- Innovative design delivers optimum detangling results
- Ergonomically designed for a palm friendly non-slip fit
