### Description

**Description:**

Watching your child suffer from wrist condition pain is difficult, especially if you feel as though there's nothing you can do to help. The Thuasne Manuimmo Junior Wrist Support supports and stabilises the area, limiting your child's pain and helping to improve the symptoms of their condition.

**Indication:**

- Arthritis of the wrist
- Carpal tunnel syndrome
- General weakness
- Guyon's canal syndrome
- Juvenile chronic arthritis
- Post-surgical repair

- Post-operative conditions
- Sprained wrist
- Strained wrist
- Tendonitis
- Wrist instability

**Features:**

- Provides wrist support and stability
- Conformable design to protect your child
- X-ray friendly wrist support
- Support is not bulky or too conspicuous
- Ideal for use after surgery or for stabilising wrist
- Radio-transparent palmar stay
- Palmar stay stabilises and immobilises wrist
- Easy-to-use tightening straps
- Can be adjusted by you or your child
- Available in left or right models
- Comes in universal size to fit most wrists

**Size indication:**

The Manuimmo Brace is available in a universal size to fit most children's wrists. To find out if the support will fit your child, measure the circumference of their wrist. The brace is suitable for a measurement between 10 - 13cm.
