Description

Description:

Watching your child play and run around is a joy to see, but this can quickly turn disastrous if they fall over and put all their weight on their wrist and hand. The Thuasne Manurhizo Junior Wrist and Thumb Support helps stabilise and support your child's wrist and thumb to ensure their injury heals properly after an operation. The brace can also be used to protect the area and prevent harm, particularly if they already suffer from a wrist or thumb condition.

Indication:

- Arthritis
- Arthritis of the wrist
- Basal joint arthritis
- Carpal tunnel syndrome
- CMC joint instability

Thuasne Junior Manurhizo Splint

- General weakness
- Guyon's canal syndrome
- Juvenile chronic arthritis
- Post-operative conditions
- Post-surgical repair
- Rheumatoid arthritis
- Sprained wrist
- Weakness of the thumb joint
- Wrist instability

Features:

- Provides wrist and thumb support and stabilisation
- Conformable and x-ray friendly support
- Radio-transparent stays in palm region and back of hand
- Comfortable foam-lined material used for added comfort
- Available in one universal size to fit most children's wrists
- Available in right or left models
- Easy-to-use tightening straps

Size indication:

The Manurhizo Junior Wrist and Thumb Support is available in one universal size to fit most children. To find out if the brace will fit your child, measure the circumference of their wrist. The support fits a circumference of 10 - 13cm.
