### Description

**Description:**

It can be difficult to find a secure wrist brace that provides enough support, is comfortable and is suitable for long-term use all at once. The Thuasne Ligaflex Manu Wrist Brace is a wrist brace designed for a range of conditions and needs, and remains comfortable even during long-term use.

**Features:**

- Wrist brace for severe sprains and more
- Has radio-transparent anatomical stays
- Firm thumb and wrist support
- Suitable for long-term wear
- Conformable and x-ray friendly stays
- Radio-transparent stays are in palm and thumb region

## Thuasne Ligaflex Manu Brace

---

- Lightweight and comfortable 3D knit
- Fabric is treated against bacteria and wicks away moisture
- Two-in-one strapping for auto adjustment and support
- Available in left or right models and four different sizes

### **Size measurement:**

To ensure maximum effectiveness, the brace is available in different models for your left or right wrist, as well as four different sizes to suit different sized wrists. Simply measure the circumference of your wrist to find out which size of the Ligaflex Manu you need.
