Description

Description:

A lumbar belt offering reinforced support. It is recommended for Common low back pain in the acute phase with intense lumbar pain. Lumbar belt compact with second skin effect. The lightest harness in the market and the light structure contributes to a second skin effect. Available in two heights: 21 cm and 26 cm and also available in five different sizes: 0, 1, 2, 3, 4

Typical patient:

Low back pain and high level of physical activity, for example an order picker

Features:

- Support adapted to pain, thanks to the additional reinforced strap
- Wearer comfort, thanks to the anatomical cuts to free the hips and ribs
- Can be worn next to the skin all day long, thanks to the CombiteX® fabric

Thuasne Lombacross Activity Belt

Fitting Instruction:

- Put on the belt with the inside label upwards.
- Hold the left end flat using your left hand.
- Vasten the velcro strap, adjusting it to the required support (if the velcro strap is properly positioned it does not wrinkle).
