Description

**Description:**

Maternity lumbar belt, for low back, pelvic and sacro-iliac pain in pregnant women. The LombaMum is the only back support that can be used during pregnancy in one universal size. The LombaMum comes with an extra strap and fits for women with a waist size from 82 to 140 cm.

**Indications:**

- Sacroiliac pain during pregnancy
- Pain in the lumbar spine
- Pains in the pelvis due to pregnancy

**Features:**

- Adjustable support thanks to the additional straps
- Size adjustable to stage of pregnancy, thanks to the 2 abdominal support bands
- Wearer comfort, thanks to the bamboo fibre lining
