Description

Description:

Ankle supports are often bulky, which can be uncomfortable when you want to wear the brace with a shoe. The Thuasne Malleo Dynastab Boa Ankle Brace is a premium ankle brace that offers a high level of support while still remaining lightweight. Suitable for an ankle sprain, the support's low profile means it can be worn in any type of shoe.

Features:

- Fast, easy and reliable Boa tightening system
- Has a lifetime guarantee
- Wide opening offers easy application and removal
- Resistant and comfortable design
- Lightweight metal reinforcements
- Figure-of-eight strapping system

Thuasne Malleo Dynastab Boa Ankle Splint

- Provides additional lateral reinforcement
- Lightweight and comfortable brace
- Antibacterial-treated 3D knit to wick away moisture
- Slim, streamlined, low-profile design
- Brace can be worn in most types of shoes
- Anatomical design features micro-aerated 3D fabric
- Light, comfortable and strong metallic splint
- Supports the malleolus (ankle's bony prominence)
- Available in three different sizes for you

Size indication:

The Boa Ankle Brace is available in three different sizes. Measure the circumference of the ankle above the malleolus
