Description

Description:

Truss for reducible inguinal hernia. One sided inguinal hernia belt with interchangeable and adjustable thigh straps. With cushions of silicone for the best comfort. Available in four different sizes

Features:

- Right/left adjustment thanks to its unique buckle system
- Comfort and effectiveness thanks to its removable and repositionable silicon pads

Fitting Instructions:

Place the pad(s) on the inside surface, against the hernia(s).

Adjust the truss to your waist size by moving fastener (e). The truss should be firmly fitted, without being too tight.

Adjust the length of the thigh straps.

Thuasne Ortel Belt

Check that the pads are properly positioned.

Size indication:

Measure the waist at the level of the navel
