Description

**Description:**

Suffering from disease of the patella tendon or instability of the kneecap can cause a great deal of pain and discomfort. The Thuasne Patella Strap helps relieve pressure in the patella tendon and supports the kneecap as a result of its anatomical shape.

**Features:**

- Applies local pressure over patella tendon
- Supports kneecap due to its anatomical shape
- Available in one singular size
- Adjustable strap suitable for most people
- Relieves pressure on patella tendon

**Size measurement:**

## Thuasne Patellar Bandage

---

The Thuasne Patella Bandage is available in one universal size to fit most knees. To find out if the strap will fit you, measure the circumference of your knee just below your kneecap. The strap will fit a circumference of between 29cm and 50cm.
