Description

Description:

Suffering from an Achilles tendon disorder can cause pain and discomfort with every step you take. The Thuasne Silistab Achillo Ankle Brace has been designed to treat Achilles tendon disorders. Its silicone inserts have a dimpled design to massage and soothe the pain you experience as a result of the condition.

Features:

- Designed for treating Achilles tendon disorders
- Silicone inserts in knit are dimpled for a massaging effect
- Anatomical shape of peri-Achilles silicone insert protects the tendon
- Offloading of Achilles tendon provided by soft silicone heel pieces
- Two pairs of heel pieces can be stacked to help your condition (5mm, 8mm or 13mm)
- Anatomically shaped knit of brace provides comfort zone over malleoli

Thuasne Silistab Achillo Brace

- Brace has patented pull tabs for easy fitting
- Available in five different sizes to fit most people

Size indication:

Find the correct size for you by measuring the circumference of your ankle above the malleolus.
