Description

Description:

Suffering from an upper extremity injury is painful enough, but when you don't have the correct support to immobilise and protect the area this can lead to further pain and re-injury. The Thuasne Townsend Shoulder Sling immobilises and protects your shoulder and arm so the injury heals properly.

Thuasne Townsend Shoulder Sling

Features:

- Provides positional support and immobilisation
- Sling is made from breathable fabric
- Helps the injury heal properly
- Universal left or right abduction pillow
- Adjustable padded strap for further support
- Can be worn for long periods of time
- Exercise ball included to strengthen arm
- Helps you avoid re-injury and further pain
- Available in two different sizes

Sizing of the Thuasne Shoulder Sling

The Townsend Shoulder Sling is available in two different sizes so you can get proper support. To find out which size you need, measure the length between the fold of your elbow and the base of your fingers and then check the table below.
