Description

Description:

TOPICREM has selected an ingredient of choice for its Anti-Aging range: Hyaluronic Acid. Naturally present in the dermis, this substance declines with age, as a result your skin becomes dry and wrinkles appear. REDENSIFYING FLUID replenishes your skin, restores suppleness and radiance and brightens your complexion! Thanks to Aquaxyl™, the cutaneous micro-relief is smoothed. Particularly recommended for combination skin, this formula contains a cocktail of plants (bamboo, lotus, water-lily and hibiscus) that provides a sensation of freshness. Tested under dermatological control. Non comedogenic. Paraben free.

Use:

Apply morning and/or evening on the face and the neck.
