Description

Description:

The URGO SOS COUPURES band is extensible, it stops bleeding by compression. It is also self-adhesive, repositionable and cut by hand, making it easy and convenient to use. Its ergonomic pack promotes a good grip and allows easy and fast application of the band. Its tip to pinch facilitates the cutting of it. Hygienic, its base protects the band after use.

Features:

- self-adhesive
- extensible
- cutting without scissors

Use:

Unroll the band to the desired length.
Wrap the band 2 to 3 rounds, overlapping slightly over the entire area of the wound to stop the bleeding.
Pinch the tip of the product to lock the tape and then pull the tape lengthwise until tearing.
Remove the band as soon as the bleeding is stopped and at most 30 minutes after application.
Clean, disinfect, rinse and dry the wound.
If necessary, apply a suitable dressing.
