Description

Description:

Equally imperceptible and comfortable, this moisturizing serum targets all the layers of the skin with its active ingredients to restore the natural moisturization mechanisms. A formula enriched with powerful moisturizing agents to revive the thirstiest skin and deliver comfort, softness and radiance.

Replenish the skin's moisture

This Water Serum enriched with Uriage Thermal Water helps to rebuild the skin barrier to maintain an optimum moisturization level.

Continuously optimize the moisturization of the epidermis

Helps to recreate a film on the surface and gradually releases the moisturizing agents contained in the Water Serum.

Restore the skin's barrier effect and limit its dehydration

Acts on the rebuilding of the corneocyte cement to boost moisturization with lasting effects.

Use:

Uriage Eau Thermale Water Serum

Apply the intensive moisturizing serum morning and/or evening to a thoroughly cleansed face and neck. Use before the Uriage face Water Cream suitable for your skin type.
