Description

Description:

Vichy's Stress Resist Anti-perspirant Intensive Treatment deodorant efficiently controls excessive perspiration for 24 hours, even under stressful conditions.

This treatment contains three active ingredients:

PerspicalmMC, regulates the flood of heat to the armpits during stress periods.

Aluminum salt, regulates perspiration.

Perlite, a patented ultra-absorbent mineral that absorbs the excess humidity.

Efficacy:

-24-hour anti-perspirant efficiency.*

Vichy Stress Resist 72Hr Roll On Deodorant

- Efficiency reinforced with every application.
- Protects from humidity during stressful periods.

Features:

- Tested on sensitive skin under dermatological control.
- Hypoallergenic
- No parabens
- With soothing and fortifying Vichy Thermal Spa Water

Use:

Apply the Stress Resist Anti-perspirant Intensive Treatment deodorant daily on clean, dry and non-irritated armpits. The roll-on tube can also be used on hands and feet.
