Description

Description:

Vichy Idéal soleil Spf50+ 3-in1 tinted anti-dark spots care, a very high protection with PhE Resorcinol that evens, corrects and protects the skin. Unifies instantly thanks to universal mineral pigments. Correct dark spots day after day thanks to its pigmented/colored formula enriched in Phe-Resorcinol, an innovative active ingredient against spots and protects from UVB/UVA rays.

PARABEN FREE. Hypoallergenic formula tested on sensitive skin under dermatological control. Enriched with Vichy Thermal Water : soothing, fortifying and regenerating.

Non greasy texture adapted for daily use, used with or instead of a daily care product. Apply to the face, neck and décollete.

Use:

Apply the sunscreen product just before exposure. Re-apply frequently and generously to maintain protection, especially after swimming, perspiring or towelling. Avoid the eye area. In case of contact with eyes, rinse them immediately and thoroughly.
