Description

Description:

The antioxidant Liftactiv cure Vichy is a suggested serum to give the skin an antioxidant and anti-fatigue through an express 10-day course for maximum efficiency! It is particularly suitable for resting the facial features, for toning and firming the skin, to reduce fine lines and signs of tiredness and to restore the radiance of the complexion. It is ideal in case of stress, change of season or lack of sleep.

Properties of Vichy Liftactiv Skincare:

Vichy Liftactiv Antioxidant and Anti-Fatigue Cure is composed of 15% pure high-dose Vitamin C with remarkable antioxidant properties, combined with moisturizing and plumping Hyaluronic Acid, and antioxidant Maritime Pine Polyphenols to preserve the skin of the skin. harm from free radicals.

Vitamin C is an active anti-aging reference: naturally present in the skin, it has an antioxidant action to fight against the effects of oxidative stress, and thus prevent the appearance of signs of age. Vitamin C, which is involved in the synthesis of collagen, also makes it possible to treat signs of age already installed, such as wrinkles or loss of firmness. Finally, it acts in prevention on the brown spots of the skin.

It also contains antioxidant Neohesperidin and Vichy mineralizing thermal water.

This anti-oxidant Vichy Liftactive serum is hypoallergenic, it contains only 11 ingredients and it is formulated without paraben or perfume for the respect of sensitive skin.

Test and efficiency : + 23% * tone immediately after application, +21% ** radiance and +71% ** smoother skin after 10 days.

* Instrumental DMT measurement of 40 Caucasian women.

** Clinical scoring on 52 women.

Use:

Once a day, take only 4 to 5 drops of Vichy Liftactiv Anti-Fatigue Cure in the palm of your hand, then apply to the clean and dry skin of the face avoiding the eye area for 10 days. In addition, it is recommended to apply a sun care with at least one SPF15 to protect the skin from UV rays.
