Description

Description:

Vitamin E functions as a natural powerful antioxidant, which helps combat free radical damage to the body. It is also used to support vital nutrients such as Vitamin A and unsaturated fatty acids from oxidative damage. Oxidation of cells is a process connected to cellular ageing, which can bring harm to the body. Vitamin E is utilised to help maintain a healthy heart, support red blood cells and nourish the skin.

Vitamin E 1000iu Capsules Help To :

- Protect cells from the free radical damages
- Protect against air pollution, toxins and protect skin from ultraviolet radiations and sunburns
- Increase cell life and ageing
- Build healthy immune system
- Strengthen blood vessels and improves blood circulation
- Improve and maintain skin tone
- Increases stamina in sports people and athletes
- Maintain healthy heart
- The well functioning of red and white blood cells
- Protect against hot flushes in menopausal women
- Reduce symptoms of premenstrual syndrome

Vitamin E 1000iu capsules can be taken on a daily basis for general good health and wellbeing to counteract free radical damage and its effects on the body.

Gluten free, wheat free, yeast free, dairy free, sugar free, salt free, artificial colours free, preservatives & flavourings free.

Use:

Adults and children over 12 years of age, one capsule daily after meals. Do not exceed recommended daily intake unless advised by a suitably qualified person.
