UV PROTECTION

Ingredients:

BEESWAX (Cera Apis Mellifera) is a nutritious substance rich in vitamin A, beneficial to cell reconstruction and in specific fatty acids, compatible with skin lipids. Beeswax acts as an emollient and humectant to regenerate and soften skin by drawing moisture to the surface and sealing it in. HENNA (Lawsonia Inermis) is considered beneficial for both skin and hair. It provides antioxidant and skin healing properties while protecting from UV damage.

Use:

Apply generously onto lips, as often as necessary.
Use alone or as a lipstick base.
Use throughout the seasons.
For extra smooth lips, first exfoliate, then apply Lip Care.
