Description

Description:

Talcum powder used to be used for the care of baby legs. Nowadays it is also used when babies suffer from skin irritations in moist, hard-to-reach skin folds. Zwitsal Talcum powder absorbs the moisture and helps to prevent irritated spots on the skin. This keeps the baby's skin soft and smooth.

Enriched with oil

Helps protect against irritations

Dermatologically tested

Mild and hypoallergenic

Use:

For baby, use after every bath and diaper change.

Shake powder directly into your hand, away from the face, before smoothing onto baby's skin. Close tightly after each use, and store in a cool, dry place.
